

New Report – Contractor Multiple Assignments Verification

Administrator Database Area Affected: *Reports*

A new report is available to databases that have the **Contractor Assignment “Tree View” enabled**. The report displays contractors that have multiple assignments to a project where there are possible assignments that may need to be adjusted in the system to further clarify the proper hierarchy. It does not show all contractors that contain more than one contract on a project (what in LCPtracker is referred to as multiple assignments).

LCP tracker Contractor Multiple Assignments Verification Report

Note: Report is to assist with granularity down to the Contract Id. Refer to this report while viewing Contractor Assignment screen to better assist if updates need to be made. Report Date: 9/15/2020

Project	Project Status	Date Created	Contractor	Sub To	Contract Id
01 LevEl Plaza	ACTIVE	5/7/2020	D Goode Inc.	El's Rigging	
01 LevEl Plaza	ACTIVE	5/7/2020	D Goode Inc.	Levi's Engineering	
LevEl Plaza	ACTIVE	11/29/2018	D Goode Inc.	Sandra Electrical	

For example, in the diagram to the right, one can see that Company B has two assignments on the same project, both as Subcontractors to Company A. The new Contractor Assignment Tree View allows users to clarify which “branch” the assignment falls under. This report assists in identifying those assignments that may need to be adjusted. This will assist in the proper functioning of reports and viewing rights.

Update – Contract Amount for Prime Contractors Transfers from B2Gnow Via the Interface

Administrator Database Area Affected: *Set Up > Contractor Setup > Contractor Assignment*

Contractor Database Area Affected: *Set Up > Subcontractor Setup > Subcontractor Assignment*

The LCP/B2G interface will now pull over the Contract amount for Prime Contractors on project assignments.

Contractor Assignment

Updated Report – Penalty Report

Administrator Database Area Affected: *Reports*

The Penalty Report can now be generated to differentiate assignments when a Contractor has multiple assignments on the same project. The report will break down the results by assignment.
