Project Setup update – display IL export

Administrator Database Area Affected: *Set Up > Add/Edit Projects*

When State of “IL – Illinois” is selected, the “Show IDOL Export File” will be an option to check or uncheck, and the “Default Jurisdiction to Show on IDOL Export File” will be selectable to choose which classification will display first on the IDOL Export

IDOL Export now available to Contractors

Contractor Database Area Affected: *Projects > Certified Payrolls*

Users are now able to pull the IDOL export file by clicking on the “IDOL Export” button. Contractors - if you are working on a project in Illinois and do not see the export, contact your Administrator to discuss, they will have to update project setup from their side.

The screenshot shows the 'Certified Payrolls' section of the LCP Tracker interface. At the top, there are tabs for 'Projects' and 'Certified Payrolls'. Below the tabs, there is a 'Project:' dropdown menu showing 'IL Convention Center | 456'. A 'Help' button is located below the dropdown. The main content area is titled 'Payroll Certifications' and contains a table with the following data:

Week End Date	Performing	Accept Status				
10/03/2020	YES	Submitted	Edit	Report	IDOL Export	Details

Below the table, it says 'Page 1'. The word 'Contractor' is written in red at the bottom right of the screenshot.

IL DOL Ethnicity List in Demographic Classifications

Administrator Database Area Affected: *Set Up > Demographic Setup*

New permanent and hard-coded Demographic Classification Type and associated Classifications for “Ethnicity – IL DOL List”; these cannot be edited/deleted, and another classification cannot be added to the list

These can be enabled/disabled.

The screenshot shows the 'Demographic Classifications' table in the LCP Tracker interface. At the top, there are 'Add' and 'Cancel' buttons. The table has the following data:

Type	Classification	Description	Require Start / End Dates	Enabled	
Ethnicity-IL DOL List	N - Not Hispanic/Latino		NO	<input checked="" type="checkbox"/>	
Ethnicity-IL DOL List	Y - Hispanic/Latino		NO	<input checked="" type="checkbox"/>	

Address History update – greyed out current address to move to history

Contractor Database Area Affected: *Set Up > Add/Edit Employee*

When a user is entering a new address for their employee, they can now easily send their previous address to the historical addresses. The user will click on “Enter New Address”

The screenshot shows the 'Select Employee To Edit' form. The employee selected is 'DOLL, STACEY'. Under 'Address Information', the current address is '5729 Main St, Springfield, OR 97478'. The 'Enter New Address' button is highlighted in yellow. Below this is a table of historical addresses.

Address 1	Address 2	City	State	Zip Code	Move-out Date	Exempt	Address Validated	
663 67th Pl		Springfield	OR	97478	07/31/2020	NO	YES	Edit Delete

Then they will be prompted to enter a move-out date for the previous address. The previous address will be greyed out to prevent overriding this address with the new address.

The screenshot shows a dialog box titled 'Move Current Address to History'. It prompts the user to 'Enter a Move-out Date to Complete Moving This Address into Address History.' The address fields are greyed out. The 'Move-out Date' field is highlighted in yellow and contains '10/03/2020'. A blue arrow points from the date field to the 'Done' button.

Then the previous address will be moved to the Historical Addresses
