

CONTRACTOR RELEASE DOCUMENT - APRIL 2021

Daily Reporter Validation Update – VAL_58

Administrator Database Area Affected: *Set Up > Validation Settings*

Contractor Database Area Affected: *Payroll Records*

VAL_58 has been updated to recognize when a contractor has multiple assignments on a single project. The check of a daily log against a payroll will now be done down to the assignment/contract level.

Validation Update – VAL_65

Administrator Database Area Affected: *Set Up > Validation Settings*

Contractor Database Area Affected: *Payroll Records*

This will only affect databases utilizing extended wage data. Updated the notice shown to contractors to include the FULL total rate that is being calculated and being compared against the total rate paid to the employee. The added portion is highlighted below.

Notice example: The total amount of Fringe Benefits paid \$2,231.749 is less than the calculated prevailing wage for this craft **of \$2,525.17** with breakdown of: Straight time \$58.050 Overtime \$87.070 Doubletime \$116.100. VAL_65.
